

PEAKE understands that nothing is more critical to your mission than fast, seamless communications. This is why we provide state-of-the-art satellite, voice and video services as well as radio integration and engineering support services. Our certified engineers have years of experience custom designing and integrating solutions connecting always-on broadband data, voice-over-IP, LMR-over-IP, video surveillance, video telepresence, and more vital communications channels to networks worldwide.

PEAKE connects people, technology and mission operations to build the most reliable integrated solutions that enable operational success.

COMMUNICATION SERVICES

- **Satellite**
 - Tactical IP Satellite Service
 - Tactical IP BGAN Service
 - Private Managed Satellite Service
- **Voice**
 - Tactical IP Satellite Service
- **Video**
 - VirtualVideoWall – Web Based, Video Information Dashboard
- **Radio**
 - Interoperability Solutions
- **Engineering**
 - PROSupport – Operational and Maintenance Service Program

CONTRACT VEHICLES

- GSA Schedule 70- Contract GS-35F-0271U- Prime
- Complex Commercial SATCOM Solutions (CS3)- Contract GS00Q17NRD4008-Prime
- DISA ETI- Defense Information Systems Agency (DISA) Global Information Grid (GIG) Services Management Engineering, Transition, and Implementation (GSM-ETI)- Sub
- US Navy Seaport E- Prime
- Naval Air Warfare Center- Prime
- State of PA- Prime
- State of MD- Prime

COMPANY

- Network Engineering, Technology Integration, Wireless Communications, AV Systems, Communication Services, Enterprise Operations and COMSATCOM
- CONUS and OCONUS reach and support
- Top Secret Facility Clearance
- ISO 9001:2008 certified Quality Management System
- Privately held SBA Certified SB; Maryland SBE
- Headquarters in Severna Park, MD
- Reach back to engineering bench
- DCAA Compliant Accounting system
- 50% of staff are Veterans

TACTICAL IP SATELLITE SERVICE

Tactical IP Satellite Service provides customers with always-on-bandwidth that enables reliable communications at any time. Mission critical communication, continuity of operations and business continuity are the priority. PEAKE offers mobile and fixed satellite service for any mission-focused customer needing a reliable, redundant communication source.

- **Up to 20 Mbps downlink and 5 Mbps uplink plans available**
- **Public Safety, Department of State, DOD, Homeland, Civilian Agencies, Energy, Commercial-Business Continuity**
- **Dual-spacecraft and network hubs expands capability and redundancy**
- **Look-Angle Diversity with access to two teleports - one on each coast**
- **Customer-choice of Home Teleport Selection with Anytime Look Angle Redundancy**
- **Supports Auto-Acquire VSAT systems with iDirect Evolution series of routers**
- **Bandwidth-on-Demand Options for Real-Time Application-Specific traffic**
- **Per-Day options for dedicated bandwidth in configurations up to 3 Mbps x 3 Mbps**
- **Plans starting at \$250 per month**

Tactical IP Plans:

TACTICAL IP Responder

- 3 Mbps x 1 Mbps Ku-Band Carrier Solution
- 10 On-Air Days per month

TACTICAL IP Responder PLUS

- 20 Mbps x 5 Mbps Ku-Band Carrier Solution
- 10 On-Air Days per month
- Our most popular plan provides all of the features of Responder
- Dual-Look Satellite Diversity is included standard on this plan

TACTICAL IP Communicator PLUS

- 3 Mbps x 1 Mbps Ku-Band Carrier Solution with a 6W BUC
- up to 9 Gigabytes of Inbound and Outbound IP-based traffic over the month without incurring additional charges
- Maximize usage days in a given month without worrying about per-day overage charges
- Dual-Look Satellite Diversity is included standard on this plan

TACTICAL IP Communicator PLUS

- 20 Mbps x 5 Mbps Ku-Band Carrier Solution with a 6W BUC
- up to 9 Gigabytes of Inbound and Outbound IP-based traffic over the month without incurring additional charges
- Dual-Look Satellite Diversity is included standard on this plan

TACTICAL IP Bandwidth-on-Demand – All Tactical-IP service plans are a shared (burst) service, allowing service 24x7x365 days per year, with no requirement to reserve or schedule service. It's simply always there. For those occasions where dedicated bandwidth is required, we provide either Committed Information Rate (CIR) profiles for priority traffic or 100% Dedicated Bandwidth.

TACTICAL VOICE VOIP SERVICE

PEAKE's Tactical Voice service offers VoIP access allowing reliable communications. Built using standards-based, off-the-shelf systems, Tactical Voice terminates VoIP calls from your SIP or H.323 gateway into our highly available Voice network.

- **Flexible connectivity for connection to voice services**
- **Redundant gateway systems**
- **5-digit internal dialing; Single or set of Direct Inward Dial (DID) line**
- **AES encryption tunnels secure traffic**
- **Local DID allows for phone number in own area code**
- **Plans starting at \$50 per month**

VIRTUAL VIDEO WALL

A state-of-the-art, web-based video information dashboard, PEAKE's VirtualVideoWall™ can be used by your organization to view deployed cameras and systems. This unique and customizable portal allows you to view your deployed fleet of cameras regardless of the make, model or codec.

- **Web-based Video Portal**
- **Securely share and receive video between agencies and organizations**
- **Publish Full and Limited views of video assets**
- **Google-map based view shows deployed cameras and video streams**
- **Detailed Login information**
- **Plans starting at \$99 per month**

PRO SUPPORT- ENGINEERING SUPPORT

PEAKE PRO Support is an on-going service program offered to our customers to provide technical support on PEAKE solutions. PRO Support can provide engineering support, on-call service, advanced training, preventative maintenance, extended warranty and many other advantages that will facilitate seamless operation. 24/7/365 On Call Network Operations Center support included in all Levels of PRO Support.

Four Levels of Support to choose from starting at \$99 per month.

Level 1

- Basic Entry-Level support service
- 24/7 On Call Network Operations Center support
- Tactical-IP VSAT customers support for basic connectivity issues is included

Level 2

- Includes all services from Level 1.
- Modem "Spare in the Air" service - Overnight iDirect modem replacement

Level 3

- Includes all services from Level 1 and Level 2.
- Unlimited remote engineering support for existing PEAKE installed or configured systems

PREMIUM

PEAKE PRO Support PREMIUM service includes Level 1, 2, and 3 support, and also provides a custom preventative maintenance program for systems installed, configured, or integrated by PEAKE.
