

PEAKE connects people, technology and mission operations to build the most reliable integrated solutions that enable operational success.

Our team of experts in mobile and enterprise infrastructure, communication systems, and vehicle customization allow us to bring advanced, end-to-end, solutions to every industry, climate and situation. With our diverse expertise and uniquely customized approach, we guide customers through the complex technology landscape and build integrated solutions that accelerate success.

It is our passion for innovation, technical reliability and operational efficiency that enables us to deliver fast, effective and field-ready solutions.

TECHNOLOGY INTEGRATION

Designing and integrating mobile, fixed and tactical technology solutions.

Mobile and Fixed Solutions

- **Mobile Solutions**
 - Audio Visual
 - Mobile Networks
 - Reachback
 - Wireless
 - Security
- **Operations Centers**
 - Design, Integration and Maintenance
 - Audio/Video Design and Installation
 - Systems Engineering and IP Networking
 - Connectivity to Resources in the Field
- **Converged Communications Interoperability**
 - LMR, Telephony, Data
- **Video Solutions**
 - VirtualVideoWall- Video dashboard
 - Surveillance
 - Teleconferencing
 - Telepresence
- **Redundant Communications**
 - VSAT Service
 - 4G/LTE Cellular
 - Mesh Networks
- **Advanced Audio/Video Integration**
 - Analog to Digital Conversion
 - Video Systems

Tactical Communication Kits

- **Warrior Kits providing "First In" Connectivity**
- **Video Kits for Mobile Video Streaming**
- **Portable, Auto-Acquire Satellite Antennas**
- **Custom Solutions**

COMMUNICATION SERVICES

Providing communication services for mission success. 'If you can't communicate you can't operate.'

- **Satellite Bandwidth Service- Tactical IP**
- **VoIP Service- Tactical Voice**
- **Cellular Services**
- **Radio/LMR Interoperability Solutions**
- **VirtualVideoWall- web based, video information dashboard**

COMPANY

- Established in 2006 as Incident Communication Solutions (ICS)
- Technology Integration, Communication Services, Specialty Vehicles, and Enterprise Operations
- ISO 9001:2008 certified Quality Management System
- Privately held SBA Certified SB; Maryland SBE
- Headquarters in Stevensville, MD
- Office locations in NJ and FL
- Over 30k sqft of secure space including staging, logistic and warehousing
- SME's in several technical and trade areas
- Reach back to engineering bench
- DCAA Compliant Accounting system

SPECIALTY VEHICLES

Designing, building and integrating high-quality specialty vehicles, customized to fit your mission requirements and concept of operations.

- **Mission Focused, Custom Vehicles**
- **Fire and EMS Vehicles**
 - Battalion Chief
 - Investigations
 - Hazmat
 - USAR
 - Command and Communications
- **Law Enforcement Vehicles**
 - Crime Scene Investigations
 - Accident Investigations
 - Evidence Collections
 - K9 Units
 - SWAT and Tactical
 - Bomb Squad
 - Mobile Forensic Labs
 - Prisoner Transport
- **Commercial Vehicles**
 - Customized for Mission
 - Business Continuity
 - Utility Vehicles
 - Senior Vehicles
 - Mobile Workstations
 - Surveying Vehicles
 - Demo Vehicles
- **Mobile Command and Communications**
- **Trailer Solutions**
- **Vehicle Retrofits and Conversions**
 - Lights and Sirens
 - Communications and Technology
 - Interior and Exterior Modifications
- **Technology Upgrades and Refresh**
- **Custom Cabinets**
- **Power System Design and Installation**
- **Fleet Vehicles**

ENTERPRISE OPERATIONS

Delivering programmatic engineering services and advanced technology solutions to our government clients to support their mission.

- **Programmatic delivery of Tactical and Vehicular-based solutions**
- **Communications Infrastructure O&M**
- **Logistics**
- **Program Management**
 - Assessment of Alternatives
 - Evergreen Tech Insertion and Refresh
 - Enterprise PROSupport
 - Full Life Cycle DME and Tech Refresh
- **Systems Design and Engineering**
 - IP Communications Engineering
 - IP Networking (LAN, WAN, MAN, VSAT, Wireless, Mesh, Cellular)
 - Communication Services Engineering- LMR, Satellite, VoIP, Video
- **COOP/DR Planning and Operations**
- **Mobility (Planning and Engineering)**
- **Service Desk Tier II & III**
- **NOC, SOC, EOC Build Out**

Contract Vehicles

- GSA Schedule 70- Contract GS-35F-0271U
- HGACBuy Contract AM10-14
- US Navy Seaport E
- Naval Air Warfare Center
- State of PA
- State of MD

Markets

- Public Safety- Fire, EMS, Police, Emergency Management
- Homeland Security
- Department of Defense
- Federal Civilian
- Energy, Oil/Gas
- Commercial

Partial Customer List

- Department of State
- DISA
- US Navy
- US Army
- National Guard
- FEMA
- ICE
- FBI
- US Secret Service
- Anne Arundel County Emergency Management
- DC FEMS
- Pennsylvania Emergency Management Agency
- Georgia Emergency Management Agency
- Baltimore City Police Department
- Maryland State Police
- Charlotte Fire Department
- Cisco Tacops
- Samaritans Purse
